SUMMARY

Research Interest

- Computer Vision
- Machine Learning and Deep Learning

Current Focus

- Classification Model
- Object Detection
- Human Pose Estimation and Head Pose Estimation

EDUCATION

Sejong University

2017.03 - Present

Intelligent Mechatronics Engineering

- Major GPA of 4.11/4.5
- Total GPA of 3.97/4.5

WORK

EXPERIENCE

MINES LAB in Sejong Univ.

2021.11 - Present

- Mobile Intelligent Embedded Systems Lab
- Researching the thesis and working related projects

WHATs LAB

2021.09 - Present

- AI Developer
- Gyeonggi-do demonstration project development team
- Educate practical course about AI

PROJECT EXPERIENCE

- 2021.09 – 2021.12*
- AI Perfume Recommend System - [github](#)**
- Python, Pytorch, HTML, CSS
 - Develop a classification model of human face image.
 - Make website for providing results to users.
 - Submit to 2021-12th Sejong Creative Design Contest
-

AWARDS

- AWARD**
- **Encouragement award**, 2021-10th Sejong Hackathon (2021) - [github](#)
-

EXTRACURRICULAR ACTIVITY

- 2021.03 – 2021.05*
- Data Analysis Study - [github](#)**
- MEMBER
- Study about data analysis, Dacon contest base
- 2020.12 – 2021.02*
- Deep Learning Study - [github](#)**
- MEMBER
- Study about Deep learning
- 2020.12 – 2020.12*
- KISTI AI Winter School - [github](#)**
- MEMBER
- Big Data and AI education from KISTI
- 2020.06 – 2020.11*
- AI Mentoring - [github](#)**
- MENTOR
- Arduino & Basic coding education for mentee
- 2020.01 – Present*
- Sejong AI academic club 'SMARCLE' - [homepage](#)**
- MEMBER
- Study about AI and share with members through various activities
